---

UI/UX Designer with hands-on experience in React and React Native, skilled in building responsive, user-friendly interfaces using Figma. Passionate about translating designs into seamless web and mobile experiences while solving technical challenges efficiently.

## PROFESSIONAL EXPERIENCE

---

### UI/UX Designer | Rootlabs Web Development

January 2026 – May 2026

- Build and style responsive user interfaces using HTML and Tailwind CSS within a Ruby on Rails application.
- Translate design mockups into functional web pages.
- Improve UI responsiveness and layout consistency across different screen sizes
- Collaborate with backend developers to integrate front-end views with Rails templates

### UI/UX and Web Designer | Freelance

April 2026 – Present

- Created wireframes, high-fidelity mockups, and reusable UI components
- Developed brand guideline systems including typography, color palettes, and visual consistency rules
- Collaborated directly with clients to refine designs and improve usability
- Designed supporting digital assets such as onboarding guides, invoices, receipts, and email templates
- Iterated on feedback to align business goals with user experience needs

## EDUCATION

---

### Bachelor of Science in Information and Technology

*La Consolacion College Bacolod, Negros Occidental, PH | Graduating on May 2026*

- **Relevant Coursework:** User Interface (UI) Design, Web Development, Frontend Development, Human-Computer Interaction, Visual Design Principles, Responsive Design, Prototyping and Wireframing.
